

Metamask

Functional and simple wallet, that acts like Google Chrome Extension. It allows to interact with many features, without need to instal any software. We prepared a guide to contribute with it, but if you need an instruction of how to use it, follow the simple steps from this [link](#).

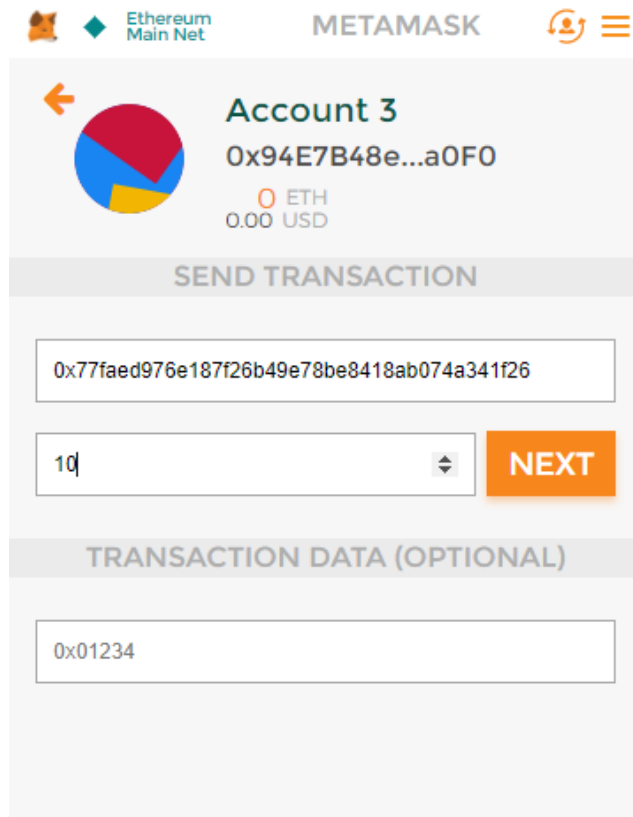

1. Click an icon of Metamask in your Google Chrome Browser

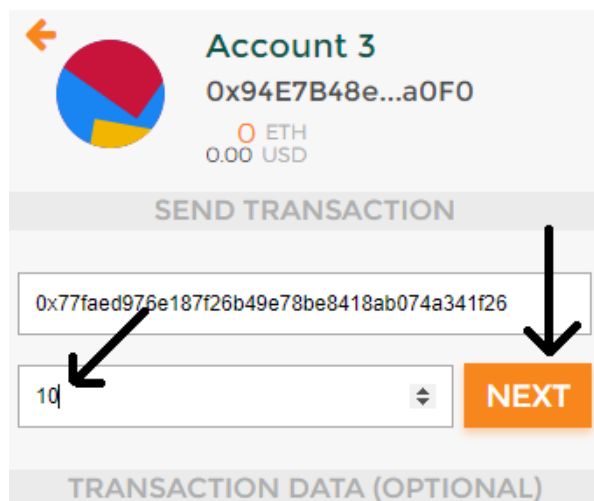

2. Click "Send"

3. In the “Recipient Address” field enter **address you took from official Integrative Wallet Token website**

4. Choose the amount of Ether you'd want to send and click “Send”

5. That would be more than enough. One of the main advantages of this extension in its simpleness
